From the Education Oversight Board:

Through these School Report Cards, the Education Oversight Board and the Office of Accountability have brought to parents and public school patrons measures of school performance. The Education Oversight Board's own "70% Performance Benchmark," shown below, challenges schools to have at least 70% of their "Regular Education" students scoring Satisfactory or Advanced in each subject area of the Oklahoma Core Curriculum Test. Schools have worked hard to meet this challenge.

A wealth of other information is included on this report card. The Community Characteristics section describes the size and socioeconomics of the community being served. The Educational Process section presents statistics on how education is delivered to students including information on school accreditation, enrollment, teachers and administrators. The final section provides data on student performance.

As an involved parent or patron I urge you to weigh the information provided and determine for yourself the quality of the education being provided. Compare your school's report card with that of other schools. Where your school is strong, acknowledge the good work. Where the school is weak, work with staff to improve it. Become a partner to education at your local school and within the district.

Sincerely,

Don McCorkell, Chairman
